Enclosed is your 2024 Consolidated Tax Statement. 1099 Tax Forms for the following accounts are included in this package:

934376930 - Robinhood Securities LLC

New for 2024 Tax Year -

1. Event Contracts - Net income from trading activity on Robinhood event contracts in 2024 will be reported as Miscellaneous Income and available on your Consolidated Form 1099 for this year. Please note, Miscellaneous Income totaling less than \$600 will not generate a form. Settlement payments on Robinhood event contracts made in 2025 will be reported next year.
2. Section 1256 Reporting - Certain products, including index options and regulated futures contracts, will be reported under Section 1256 Contracts on your Consolidated Form 1099. These contracts are also subject to an annual "mark-to-market" process for positions held through the end of the calendar year.

For additional information, please visit the Help Center > Taxes and Forms
(<https://robinhood.com/us/en/support/articles/about-tax-documents/#Whatsnewthisyear>).

Multiple Robinhood Accounts - You can expect your Consolidated Form 1099 package to be reported under Robinhood Markets Inc and cover your applicable Robinhood Securities, Crypto and Derivatives accounts. If you have a Joint account with reportable activity, a separate Form 1099 will be provided. If you had any reportable distributions or contributions within a Robinhood Retirement account, your 2024 tax forms 1099-R and/or 5498 will also be delivered separately. Retirement accounts will be reported under Robinhood Securities LLC.

Filing Your Taxes - If filing through tax service providers, such as TurboTax or H&R Block, please utilize the Master Account Number and Document ID listed above for your consolidated accounts (Securities, Crypto and Futures). The Document ID is necessary to directly import your 1099 data into the tax software so that you do not need to manually enter each transaction. If you have a reportable Joint Account or Retirement account, it will have its own unique Master Account Number and Document ID, and will need to be imported separately. Please note that tax software providers may have limits on what can be directly imported using the Document ID (i.e. maximum number of transactions or 1256 contract information).
